MOELLER STONE CARE

BASALT LAVA

TI-15

- cleaning and maintenance -

Care instruction tested to DIN 18332 (EN 12440)

CONDITIONS

LIELD FOR CROUTING

When treating a newly laid surface ensure sufficient drying time for the moisture to escape from the surface and substructure (maximum 2-4% residual moisture content).

Allow 2-3 weeks drying time for an adhesive bed and 4-6 weeks for mortar bed.

Drying times are indicative only and are subject to variation depending on the weather and the object and can be longer.

It's essential that any under-floor heating has been switched off and the surface is at a normal temperature, adequately cleaned, free of stains, dry and absorbent.

Always test in an inconspicuous place to determine suitability and coverage. Always read the labels carefully. Ensure the area around the surface to be treated is well ventilated.

HELP FOR GROUTING				
Before grouting:	S45	Joint Protector -water based-	Coverage: appre	ox. 10-15 m²/litre
CLEANING				
Construction dirt:	R55	Intensive Cleaner -acid free-	Coverage: appre	ox. 10-30 m ² /litre
Cement smears:	R69	Stone Cleaner -special- please test if surface is acid resistance	Coverage: appro	ox. 10-60 m ² /litre
Stains:	Refer	to Technical Information Sheet No. 1		
After cleaning the surface mus	st be allowed	d to dry for at least 1 to 2 days to a residual moistu	re content of 2-4% before	any further

treatment can take place.

PROTECTION					
Without enhancing colour:	S32W	Stain Protection -water based- (inside and outside)	Coverage:	approx.	5-20 m²/litre
Minimal colour enhancing:	S34N	Stain Protection -extra- (inside and outside) second application after 24hours necessary	Coverage:	approx.	5-20 m²/litre
Strong colour enhancing:	S44	Colour Enhancer -extra- (inside and outside) second application after 24hours necessary	Coverage:	approx.	5-20 m ² /litre
Colour enhancing matte finish:	S35*	Stone Sealer -matte finish- (only for inside) one time S34N, after 24h one time S35	Coverage:	approx.	5-10 m ² /litre
Colour enhancing satin finish:	S37*	Stone Sealer -satin finish- (only for inside) one time S34N, after 24h one time S37	Coverage:	approx.	5-10 m ² /litre
	* only	on rough surfaces			

After drying polish with a soft close by hand or with lambswool and a machine. Once dry the residual material is not harmful to health.

MAINTENANCE - inside and outside Regular maintenance: Liquid Stone Soap -no rinse- (natural product) add approx. 25-50 ml for every 10 liters of wash water Strong loaded surfaces: **P23** Polish-Preserver -no rinse-

add approx. 100-200 ml for every 10 liters of wash water, -only for insidethat means five times using P24, than one time using P23.

Periodical intensive cleaning: **R55** Intensive Cleaner -acid free

periodical if necessary do a cleaning with soft brush

OLD SURFACES

Films of maintenance products and dirt: **R54**

Intensive Cleaner -acid free-Coverage: approx. 10-30 m²/litre Stripper - Stain Remover Layer of Waxes: Coverage: approx. 5-10 m²/litre For optimum results and durability of further applications, older surfaces should be thoroughly cleaned. Repeat cleaning if necessary.

ENVIRONMENT

All specialist products comply with the German Detergent Act and are registered with the Federal Environmental Offices in Berlin.

After necessary drying time is allowed, proceed with products indicated under "PROTECTION". Always follow individual product directions.

Our specialized products have been recommended for decades by leading natural stone producers.

This technical instruction card is for advice only and is supplied without obligation. We require that the person making the application adapts all data concerning the application of the products to local conditions and the materials to be cleaned. We reserve the right to make changes to our products without warning as a result of technological advancement. The person conducting the application is responsible for any third person

All products are available from many reputable natural stone and tile dealers.
