TI-30a

Coverage: approx. 15-30 m²/litre

MOELLER STONE CARE

Care Instruction for PORCELAIN TILES FLOORING with Anti Slip R9

 – cleaning, protection and maintenance – Care instruction tested to DIN 51130

CONDITIONS

When treating a newly laid surface ensure sufficient drying time for the moisture to escape from the surface and substructure (maximum 2-4% residual moisture content).

Allow 2-3 weeks drying time for an adhesive bed and 4-6 weeks for mortar bed.

Drying times are indicative only and are subject to variation depending on the weather and the object and can be longer.

It's essential that any under-floor heating has been switched off and the surface is at a normal temperature, adequately cleaned, free of stains, dry and absorbent.

Always test in an inconspicuous place to determine suitability and coverage. Always read the labels carefully. Ensure the area around the surface to be treated is well ventilated.

CLEANING		
Construction dirt:	R61 Porcelain Tile Intensive Cleaner	Coverage: approx. 10-80 m²/litre
Cement smears:	R63 Cement Film Remover	Coverage: approx. 5-50 m²/litre
Stains:	Refer to Technical Information Sheet No. 1	

After cleaning the surface must be allowed to dry for at least 1 to 2 days to a residual moisture content of 2-4% before any further treatment can take place.

Porcelain Tile Impregnator

PROTECTION – inside and outside

Basic protection:

Once dry the residual material is not harmful to health.

S43

MAINTENANCE – inside and outside				
Regular maintenance:	P15	Porcelain Tile Care Cleaner add approx. 25-50 ml for every 10 liters of wash water		
Periodical intensive cleaning:	R57	Ceramic Tile Intensive Cleaner for keeping anti slip R9 means 20 times P24, than do a cleaning with soft brush and R55		

ENVIRONMENT

All specialist products comply with the German Detergent Act and are registered with the Federal Environmental Offices in Berlin.

Our specialized products have been recommended for decades by leading porcelain tiles producers.

This technical instruction card is for advice only and is supplied without obligation. We require that the person making the application adapts all data concerning the application of the products to local conditions and the materials to be cleaned. We reserve the right to make changes to our products without warning as a result of technological advancement.
